Rev. 10/5/2020
INTRODUCTION

PSI provides a range of services to the states that use the Real Estate Examination Program (REP). This booklet provides information that you will need to register for the North Dakota real estate licensing examinations. Be sure to keep the booklet after you have registered for the examination; you may wish to refer to it later.

The real estate examinations are developed through a combined effort of real estate experts and testing professionals. Real estate practitioners and educators write the questions. Experts in the fields of both real estate and testing review the questions to ensure that they are accurate in their content and representative of good question-writing procedures. Representatives from states participating in the PSI Real Estate Examination Program review the questions to make certain that the content of the questions is accurate and relevant to real estate practices in their own states. Finally, all questions are revised and updated on a continual basis to reflect the current laws and practices in the changing real estate field.

The content outline used to develop the examination is based on a job analysis and expert judgment. It reflects areas of knowledge required to perform those tasks that practicing real estate salespersons and brokers judged to be important. Real estate experts who write questions for PSI use this content outline as a guide. Thus, examinees are tested only on subjects judged by real estate brokers and salespersons as most important for beginning licensees to know.

The content outline does not include topics, such as promotional skills, that may be helpful to success in the industry. Since the purpose of licensure testing is to protect the consumer rather than to guarantee success in practice, the examinations focus on the knowledge you must have to protect the consumer and your ability to apply that knowledge to a consumer's particular situation. Similarly, the examinations include some technical language not used in your everyday conversations. You must learn that language to become a part of the profession and be able to explain its meaning to customers and clients.

STATEMENT OF NONDISCRIMINATION

PSI does not discriminate among candidates on the basis of age, gender, race, religion, national origin, disability, marital status, sexual orientation or gender identity.

MISSED APPOINTMENTS AND FORFEITURES

You will forfeit the application and all fees paid to take the examination under the following circumstances:

- You wish to reschedule a second time.
- You appear more than 15 minutes late for an examination.
- You fail to report for an examination appointment.

A complete application and examination fee are required to reapply for the examination.

INCLEMENT WEATHER, POWER FAILURE OR EMERGENCY

In the event of inclement weather or unforeseen emergencies on the day of an examination, PSI will determine whether circumstances warrant the cancellation, and subsequent rescheduling, of an examination. The examination will usually not be rescheduled if the Test Center personnel are able to open the Test Center.

You may visit the www.psionline.com/openings website prior to the examination to determine if PSI has been advised that any Test Centers are closed. Every attempt is made to administer the examination as scheduled; however, should an examination be canceled at a Test Center, you will receive notification regarding rescheduling or reapplication following the cancellation of your scheduled examination.

If power to a Test Center is temporarily interrupted during an administration, your examination will be restarted. The responses provided up to the point of interruption will remain intact, but for security reasons the questions will be scrambled.

NO REFUNDS

If you fail to arrive at the Test Center on the date and time you are scheduled for examination, you will not be refunded any portion of your examination fee and must reregister by contacting PSI; examination fees may NOT be transferred to another appointment.

If you arrive more than 15 minutes late for an appointment, you will not be admitted, will forfeit your examination fee, and must reregister for the examination by contacting PSI.

PREPARING FOR THE EXAMINATION

The study and test-taking advice described here may be helpful as you prepare for the examination. Try to be objective about your individual learning needs when deciding how best to study. Plan your study schedule well in advance. Use learning techniques, such as reading or audiovisual aids. Be sure you find a quiet place to study where you will not be interrupted. We suggest you concentrate your study efforts on a few carefully chosen textbooks.

Test-taking Advice

The examination will be timed and the computer will indicate the time remaining on the screen. If you find it distracting, the time feature may be turned off during the examination. If you choose to turn off the time feature, you should pace yourself by periodically checking your progress. This will allow you to make any necessary adjustments. Remember, the more questions you answer, the better your chances of achieving a passing score. The time limit is intended to allow you to complete the entire examination by working quickly and efficiently.

Be sure to answer each question, even the ones for which you are uncertain. Avoid leaving any questions unanswered; this will maximize your chances of passing. It is better to guess than to leave a question unanswered; there is no penalty for guessing.
EXAMINATION CONTENT

To begin your preparation in an informed and organized manner, you should know what to expect from the actual examination in terms of the content. Information regarding the content of the examination you will be taking is presented in the following sections. A complete content outline is provided in the back of this handbook.

Salesperson Examination

The North Dakota Real Estate Salesperson Examination consists of two parts:

1. National Salesperson Examination (national portion)
2. State Salesperson Examination (state portion)

The total time allowed for both portions of the examination is 3.5 hours. When taking both portions, the questions on the two portions will be intermixed and will not appear as separate sections.

The questions on these examinations are designed to measure your ability to understand and apply the fundamental principles of real estate. There are two general types of questions. The first is based on general information about real estate; the second on the ability to apply fundamental real estate laws, principles and methods to familiar problems. Both types of questions require knowledge of real estate laws, principles and methods. Comprehension of basic real estate mathematical computations is necessary for each examination.

NATIONAL SALESPERSON PORTION

The National Salesperson Examination is based upon seven major content areas. Each of the content areas is briefly described below. The National Salesperson Examination is composed of 100 questions that are used to compute your score. In addition to the questions used to compute your score, the examination may include five questions that are being "pretested" for use in future versions of these examinations. These pretest questions are not identified, and your answers to them do not affect your score.

STATE SALESPERSON PORTION

This portion tests knowledge areas that are required specifically for the North Dakota real estate professional, as described by the current version of the North Dakota Real Estate Commission Real Estate License Law and Rules and Regulations booklet. There are 40 questions in this portion of the examination that are used to compute your score. In addition to the questions used to compute your score, the examination may include five questions that are being "pretested" for use in future versions of these examinations. These pretest questions are not identified, and your answers to them do not affect your score.

Taking the Salesperson Examination

The computer monitors the time you spend on the examination. The examination will terminate if you exceed the time allowed. You may click on the Time box in the lower right portion of the screen to monitor your time. A digital clock indicates the time remaining for you to complete the examination. The Time feature may be turned off during the examination.

Only one examination question is presented at a time. The question number appears in the lower right portion of the screen. Choices of answers to the examination questions are identified as A, B, C or D. You must indicate your choice by either typing in the letter in the response box in the lower left portion of the computer screen or clicking in the option using the mouse. To change your answer, enter a different option by typing in the letter in the box or by clicking on the option using the mouse. You may change your answer as many times as you wish during the examination time limit.

To move to the next question, click on the forward arrow (>) in the lower right portion of the screen. This action will move you forward through the examination question by question. If you wish to review any question, click the backward arrow (<) or use the left arrow key to move backward through the examination.

An examination question may be left unanswered for return later in the examination session. Questions may also be bookmarked for later review by clicking in the blank square to the right of the Time button. Click on the double arrows (>>) to advance to the next unanswered or bookmarked question on the examination. To identify all unanswered and bookmarked questions, repeatedly click on the double arrows (>>). When the examination is completed, the number of examination items answered is reported. If not all questions have been answered and there is time remaining, return to the examination and answer those questions. Be sure to provide an answer for each examination question before ending the examination. There is no penalty for guessing.

Candidate Comments

During the examination, you may make comments for any question by clicking on the Comment button to the left of the Time button. This opens a dialogue box where comments may be entered. Comments will be reviewed, but individual responses will not be provided.

Sample Questions

The following questions illustrate the type of questions used in the National Salesperson examination. These sample questions do not represent the full range of content or difficulty levels contained in the examinations. They are intended to help you become familiar with the types and formats of questions on the examination. Read each question and decide which answer is best. You may then check your answers with the answer key that follows. The answer key also shows the topic being tested; the topic refers to the content outline included in the back of this handbook.

**National Real Estate Salesperson Sample Examination**

The Sample National Real Estate Salesperson Examination is available in web-based format. To order the online sample examination, please visit [http://schedule.psiexams.com](http://schedule.psiexams.com) and click on “Begin Preparing” and “Real Estate” in the list of Web Tests. Two versions of the web-based Sample Examination are available. The cost of the basic version is $15. The cost of the enhanced version that provides detailed explanations of the answers is $25. Both are available with payment by credit card through the online store. No duplication of the sample examination is allowed. The examination is copyrighted by PSI Services.
Each problem will consist of three components: Scenario, Information Gathering (IG) sections and Decision Making (DM) sections. Each problem begins with a scenario. The scenario provides the setting and introductory client information (e.g., age, gender, presenting problem(s)).

In **Information Gathering** (IG) sections you are to gather all relevant information for answering the question. Read all responses before selecting the responses that you consider necessary for responding to the question. You should select all options that are appropriate at the time. If you select more or fewer answer options than are appropriate, this will adversely impact your information gathering score.

**Decision Making** (DM) sections provide opportunities for making judgments or decisions. These sections may be formatted in one of two ways:

1. **Single Best Option** – There may be more than one acceptable option, but one option is generally regarded as most acceptable.

2. **Multiple Options** – Several options are considered appropriate. These sections address decisions in which a combination of actions is required.

In the decision making section described in 1 above, the instructions will be to “CHOOSE ONLY ONE” option. You should not assume that your response is incorrect if you are directed to make another selection. The simulation examination format sometimes uses this direction. The multiple option type of decision making described in 2 will have instructions to “SELECT AS MANY” options as are appropriate in the situation.

### Taking the Broker Simulation Examination

Three windows appear on the screen at all times during a simulation examination (see Figure 1). The **Scenario Window** section is displayed across the top of the screen; your picture is displayed in the upper right portion of this window. Each simulation begins with a brief paragraph in this window that provides preliminary information about the situation; subsequent sections contain information about the changing situation. A scroll bar is available when necessary to view all text. Each **Scenario Window** will also provide you with specific instructions about whether to “CHOOSE ONLY ONE” response in the section or to “SELECT AS MANY” responses as appropriate to gather information.

The **Options Window** is displayed as the lower left portion of the screen and contains all options (choices or possible responses) from which to choose in the current section. A scroll bar is also available when necessary to view all options.

The **Simulation History Window** is displayed as the lower right portion of the screen. This window can be displayed in two formats using the button labeled “Current Section/Simulation History” located at the top of this window. When in the “Current Section” mode, the options chosen in the current section and the results for each choice are displayed in this window.

In these sections you are to gather all information from that option has been revealed.

You cannot reconsider and “unselect” it, since the information from that option has been revealed.

### Figure 1. Sample computerized simulation screen layout – Three windows appear on the screen at all times during a simulation examination.

When in the “Simulation History” mode, the scenarios from all previous sections as well as the options chosen and their results are displayed in the window. A scroll bar is available on the right side of this window to review previous scenarios and/or options and results.

Once you have read the scenario for each section and determined which option(s) are appropriate for selection, you can simply click the box to the left of the option to “choose” it. Immediately, the option selected and the results for that option appear in the right-hand Simulation History Window. After you select or “choose” an option, you cannot reconsider and “unselect” it, since the information from that option has been revealed.
In sections where you are instructed to “SELECT AS MANY as you consider indicated,” you should select all of the options believed appropriate at the time and then click the “Go To Next Section” button at the bottom left of the screen to continue to the next section. A dialog box will appear requesting that you confirm your wish to continue to the next section and warn that returning to this section to make additional choices will not be possible. By selecting “Yes,” the software automatically takes you to the next section of the simulation.

In sections where you are instructed to “CHOOSE ONLY ONE unless directed to make another selection,” you should carefully review each option and then choose the one best option. A dialog box will then appear to present the results for the choice or request that you select another response in the section.

A “Help Screen” will be accessible to you throughout the simulation examination to explain how to navigate through the examination.

How Passing Scores are Determined

- Multiple-Choice Examination
  The minimum score required to pass the multiple-choice portions is determined by using a process known as the Angoff method, in which subject-matter experts estimate the difficulty of each item on the examination for the “minimally competent practitioner” (MCP). These judgments are averaged to determine the minimum passing score, which represents the amount of knowledge an MCP would likely demonstrate on the examination.

- Simulation Examination
  The passing score for the simulation examination is determined using a method similar to that described for multiple-choice portions. Each section in a simulation was evaluated by content experts when the problem was developed. A minimum passing level (MPL) was established for the section using the scoring weights assigned to the options in that section and represents the level of performance expected of a “minimally competent practitioner.” The overall examination has an Information Gathering (IG) MPL and a Decision Making (DM) MPL, which represent the sums of the MPLs of all IG and DM sections on the examination.

- Equating
  A statistical process called equating is used to ensure consistency in the meaning of the score required to pass an examination. If the raw passing score varies slightly between different versions (or “forms”), the level of knowledge required to achieve the passing score remains the same, thus assuring that all candidates are treated fairly.
Your Salesperson Examination Score Report

After you have completed the Salesperson examination, you will be instructed to report to the testing supervisor to receive your score report. Your score report will show your result for your examination and will give diagnostic scoring information for any portion you did not pass. To be eligible to apply for a salesperson license in North Dakota, you must pass both the National and State portions of the examination.

The passing score for the examination is determined using a criterion-referenced process in which subject-matter experts estimate the difficulty of each question on the examination for the minimally competent candidate. These judgments are averaged to determine the minimum passing score that represents the amount of knowledge a “minimally competent practitioner” would likely demonstrate on the examination. Statistical equating procedures are used to ensure that each examination form that is developed will be of a consistent level of difficulty.

The passing score for the national portion of the examination is 70 items correct, and the passing score for the state portion is 30 items correct.

If You Pass the Examination

If you pass the appropriate examination(s), you are responsible for submitting your ORIGINAL score report and appropriate forms to the North Dakota Real Estate Commission to have your license issued or placed on inactive status. Keep all of your score reports as you will be required to submit original score reports to the North Dakota Real Estate Commission to verify the dates you have taken the examinations and that you have passed the examination.

If You Fail the Examination

You must take both portions of the salesperson examination on your first attempt. If you do not pass both portions of the salesperson examination, your score report will indicate your scores and reapplication instructions. You will only be required to repeat the portion(s) that you failed. If the remaining portion is not passed within 12 months of the first attempt, you will be required to submit a new application and fees to the North Dakota Real Estate Commission.

If you do not meet or exceed the minimum passing level in both IG and DM on the broker simulation exam, your score report will indicate your scores and reapplication instructions. You will be required to repeat the entire broker simulation exam. If you do not pass within 12 months of your first attempt, you will be required to submit a new application and fees to the North Dakota Real Estate Commission.

Duplicate Score Report

You may purchase additional copies of your score report at a cost of $25 per copy. Requests must be submitted to PSI, in writing, within 12 months after the examination. Complete the request form on page 17 of this handbook and submit it with the required fee payable to PSI Services Inc. Duplicate score reports will be processed and mailed within approximately five business days following receipt of the request.

Specifications based on 2015 Job Analysis

Subcategory targets and cognitive level targets (i.e., the numbers appearing in parentheses) are guidelines, and the actual number of items on test forms may vary slightly from these targets. Five unscored pretest items will be included on each test form. Examinations are designed to be administered in a 2.5 hour testing session. When combined with a state-specific portion, sufficient additional testing time will be allocated.
In addition, all items will be classified according to the cognitive level that is expected to be required for the entry-level candidate to appropriately respond to the item. The cognitive level classifications are defined in the following table, which also shows the percentage of items at each level for the salesperson examination.
