INTRODUCTION

The State of New Hampshire has retained the services of PSI to develop and administer their real estate examination program. As a full-service testing company, PSI provides expertise and support to associations, state credentialing agencies and private industry in test development, scoring and reporting of examinations.

PSI provides a range of services to the states that use the Real Estate Examination Program (REP). This handbook provides information that you will need to register for the New Hampshire Real Estate Examinations. Be sure to keep the handbook after you have registered for the examination; you may wish to refer to it later.

The real estate examinations are developed through a combined effort of real estate experts and testing professionals. Real estate practitioners and educators write the questions. Experts in the fields of both real estate and testing review the questions to ensure that they are accurate in their content and representative of good question-writing procedures. Representatives from states participating in the PSI Real Estate Examination Program review the questions to make certain that the content of the questions is accurate and relevant to real estate practices in their own states. Finally, all questions are revised and updated on a continual basis to reflect the current laws and practices in the changing real estate field.

The test content outline used to develop the examinations is based on a job analysis and expert judgment. It reflects areas of knowledge required to perform those tasks that practicing real estate salespersons and brokers judged to be important. Real estate experts who write questions for PSI use this content outline as a guide. Thus, examinees are tested only on subjects judged by real estate brokers and salespersons as most important for beginning licensees to know.

The content outline does not include topics, such as promotional skills, that may be helpful to success in the industry. Since the purpose of licensure testing is to protect the consumer rather than to guarantee success in practice, the examinations focus on the knowledge you must have to protect the consumer and your ability to apply that knowledge to a consumer's particular situation. Similarly, the examinations include some technical language not used in your everyday conversations. You must learn that language to become a part of the profession and be able to explain its meaning to customers and clients.

STATEMENT OF NONDISCRIMINATION

PSI does not discriminate among candidates on the basis of age, gender, race, religion, national origin, disability or marital status.

The examination will usually not be rescheduled if the Test Center personnel are able to open the Test Center.

You may visit www.goAMP.com prior to the examination to determine if PSI has been advised that any Test Centers are closed. Every attempt is made to administer the examination as scheduled; however, should an examination be canceled at a Test Center, all scheduled candidates will receive notification following the cancellation of the examination regarding rescheduling or reapplication procedures.

If power to a Test Center is temporarily interrupted during an administration, your examination will be restarted. The responses provided up to the point of interruption will be intact, but for security reasons the questions will be scrambled.

NO REFUNDS

If you fail to arrive at the Test Center on the date and time you are scheduled for examination, you will not be refunded any portion of your examination fees and must reregister by obtaining a registration form from the PSI website and submitting the completed registration form along with the appropriate examination fee to the New Hampshire Real Estate Commission. PREPARING FOR THE EXAMINATION

The study and test-taking advice described here may be helpful as you prepare for the examination. Try to be objective about your individual learning needs when deciding how best to study. Plan your study schedule well in advance. Use learning techniques, such as reading or audiovisual aids. Be sure you find a quiet place to study where you will not be interrupted. We suggest you concentrate your study efforts on a few carefully chosen textbooks.

The examination will be timed and the computer will indicate the time remaining on the screen. If you find it distracting, the time feature may be turned off during the examination. If you choose to turn off the time feature, you should pace yourself by periodically checking your progress. This will allow you to make any necessary adjustments. The time limit is intended to allow candidates to complete the entire examination by working quickly and efficiently.

■ National Broker Portion

The National Broker Examination is presented in simulation problem format and consists of 10 simulation problems. Nine of these problems will be used to compute your score. The other problem is not scored and is being pretested for future examinations.

Each simulation problem will have a designated primary issue and property type. Each section within a problem will carry a secondary topic for that section. The primary issue and property type will remain consistent throughout the simulation problem, but the secondary topic can change with each section of the problem. The distribution of issues and property types is given in the Broker Simulation Examination Content Outline.

Each problem will consist of three components: Scenario, Information Gathering (IG) sections and Decision Making (DM) sections. Each problem begins with a scenario. The scenario provides the setting and introductory client information [e.g., age, gender, presenting problem(s)].

In Information Gathering (IG) sections you are to gather all relevant information for answering the question. Read all responses before selecting the responses that you consider necessary for responding to the question. You should select all options that are appropriate at the time. If you select more or fewer answer options than are appropriate, this will adversely impact your information gathering score.

Decision Making (DM) sections provide opportunities for making judgments or decisions. These sections may be formatted in one of two ways:

1. Single Best Option – There may be more than one acceptable option, but one option is generally regarded most acceptable.
2. Multiple Options – Several options are considered appropriate. These sections address decisions in which a combination of actions is required.

The multiple option type of decision making described in 2 will have instructions to 'SELECT AS MANY' options as are appropriate in the situation.

National Real Estate Broker Simulation Sample Examination

The National Real Estate Broker Simulation Sample Examination is available in web-based format. The sample examination includes four problems that are similar to those found on the National Broker Simulation Examination for those states using this testing format. The sample examination is purchased and taken online at the convenience of the purchaser. To order the online sample examination, please visit www.goAMP.com and click on "E-Store," "Web Tests" and "Real Estate." The cost of the sample examination is \$25. The sample examination is available with payment by credit card through the online store. No duplication of the sample examination is allowed. The sample examination is copyrighted by PSI.

Taking the Multiple-Choice Examination

The computer monitors the time you spend on the examination. The examination will terminate if you exceed the time allowed. You may click on the Time box in the lower right portion of the screen to monitor your time. A digital clock indicates the time remaining for you to complete the examination. The Time feature may be turned off during the examination.

Only one examination question is presented at a time. The question number appears in the lower right portion of the screen. Choices of answers to the examination questions are identified as A, B, C or D. You must indicate your choice by either typing in the letter in the response box in the lower left portion of the computer screen or clicking on the option using the mouse. To change your answer, enter a different option by typing A, B, C or D or by clicking on the option using the mouse. You may change your answer as many times as you wish during the examination time limit.

To move to the next question, click on the forward arrow (>) in the lower right portion of the screen. This action will move you forward through the examination question by question. If you wish to review any question, click the backward arrow (<) or use the left arrow key to move backward through the examination.

An examination question may be left unanswered for return later in the examination session. Questions may also be bookmarked for later review by clicking in the blank square to the right of the Time button. Click on the double arrows (>>) to advance to the next unanswered or bookmarked question on the examination. To identify all unanswered and bookmarked questions, repeatedly click on the double arrows (>>). When the examination is completed, the number of examination items answered is reported. If not all questions have been answered and there is time remaining, return to the examination and answer those questions. Be sure to provide an answer for each examination question before ending the examination. There is no penalty for guessing.

■ Candidate Comments

During the examination, you may make comments for any question by clicking on the Comment button to the left of the Time button. This opens a dialogue box where comments may be entered. Comments will be reviewed, but individual responses will not be provided.

■ Taking the Simulation Examination

Three windows appear on the screen at all times during a simulation examination (see Figure 1). The **Scenario Window** section is displayed across the top of the screen; your picture is displayed in the upper right portion of this window. Each simulation begins with a brief paragraph in this window that provides preliminary information about the situation; subsequent sections contain information about the changing situation. A scroll bar is available when necessary to view all text. Each **Scenario Window** will also provide you with specific instructions about whether to “CHOOSE ONLY ONE” response in the section or to “SELECT AS MANY” responses as appropriate to gather information.

USE THE SCROLL BAR ON THE RIGHT SIDE OF ANY WINDOW AS NEEDED TO SEE ALL INFORMATION.

You are hosting an open house. Mr. & Mrs. Charles Martin come into the house. You greet them and show them the house. The Martins tell you the house is exactly what they are looking for and they are very interested in purchasing it. You then give them information showing the various types of financing available with down payment options and projected payments.

Which of the following information should you obtain?
(SELECT AS MANY as you consider indicated in this Section, then click on the Go To Next Section button below to proceed to the next Section.)

Figure 1. Sample computerized simulation screen layout – Three windows appear on the screen at all times during a simulation examination

The **Options Window** is displayed as the lower left portion of the screen and contains all options (choices or possible responses) from which to choose in the current section. A scroll bar is also available when necessary to view all options.

The **Simulation History Window** is displayed as the lower right portion of the screen. This window can be displayed in two formats using the button labeled “Current Section/ Simulation History” located at the top of this window. When in the “Current Section” mode, the options chosen in the current section and the results for each choice are displayed in this window. When in the “Simulation History” mode, the scenarios from all previous sections as well as the options chosen and their results are displayed in the window. A scroll bar is available on the right side of this window to review previous scenarios and/or options and results.

Once you have read the scenario for each section and determined which option(s) are appropriate for selection, you can simply click the box to the left of the option to “choose” it. Immediately, the option selected and the results for that option appear in the right-hand **Simulation History Window**. After you select or “choose” an option, **you cannot reconsider and “unselect” it, since the information from that option has been revealed.**

In sections where you are instructed to “SELECT AS MANY as you consider indicated,” you should select all of the options believed appropriate at the time and then click the “Go To Next Section” button at the bottom left of the screen to continue to the next section. A dialog box will appear requesting that you confirm you wish to continue to the next section and warning that returning to this section to make additional choices will not be possible. By selecting “Yes,” the software automatically takes you to the next section of the simulation.

In sections where you are instructed to “CHOOSE ONLY ONE unless directed to make another selection,” you should carefully review each option and then choose the one best option. A dialog box will then appear to present the results for the choice or request that you select another response in the section.

A “Help Screen” will be accessible to you throughout the simulation examination to explain how to navigate through the examination.

ON THE DAY OF YOUR EXAMINATION

Your examination will be given by computer at a PSI Test Center. You do not need any computer experience or typing skills to take your examination. On the day of your testing appointment, report to the Test Center no later than your scheduled testing time. Look for signs indicating PSI Test Center Check-in. IF YOU ARRIVE MORE THAN 15 MINUTES AFTER THE SCHEDULED TESTING TIME, YOU WILL NOT BE ADMITTED.

■ Identification

To gain admission to the Test Center, you must present two forms of identification. The primary form must be government issued, current and include your name, signature and photograph. Temporary ID is not accepted. You will also be required to sign a roster for verification of identity.

- Examples of valid primary forms of identification are: driver's license with photograph; state identification card with photograph; passport; military identification card with photograph.
- The secondary form of identification must display your name and signature for signature verification (e.g., credit card with signature, social security card with signature, employment/student ID card with signature).
- If your name on your registration is different than it appears on your identification, you must bring proof of your name change (e.g., marriage license, divorce decree or court order).

RULES FOR THE EXAMINATION

Please note the following items will not be allowed in the testing room except securely locked in the soft locker.

Once you have placed your personal belongings into the soft locker, you will be asked to pull out your pockets to ensure they are empty. If you bring personal items that will not fit in the soft locker, you will not be able to test. The site will not store or be responsible for your personal belongings.

If any personal items are observed or heard (cellular/smart phones, alarms) in the testing room after the examination is started, you will be dismissed and the administration will be forfeited.

■ Examination Restrictions

- Pencils will be provided during check-in.
- You will be provided with one piece of scratch paper at a time to use during the examination, unless noted on the sign-in roster for a particular candidate. You must return the scratch paper to the supervisor at the completion of testing, or you will not receive your score report.

- No questions concerning the content of the examination may be asked during the examination.
- Eating, drinking or smoking will not be permitted in the Test Center.

Your photograph, taken before beginning the examination, will remain on-screen throughout your testing session. This photograph will also print on your score report.

■ Practice Examination

Prior to attempting the examination, you will be given the opportunity to practice taking a test on the computer. The time you use for this practice test is NOT counted as part of your examination time or score. When you are comfortable with the computer testing process, you may quit the practice session and begin the timed examination.

■ Timed Examination

Following the practice examination, you will begin the actual examination. Before beginning, instructions for taking the examination will be provided on-screen. The following time limits will be in effect for each examination.

FOLLOWING THE EXAMINATION

■ How Passing Scores are Determined

• Multiple-Choice Examination

The minimum score required to pass the multiple-choice portions is determined by using a process known as the Angoff method, in which subject-matter experts estimate the difficulty of each item on the examination for the “minimally competent practitioner” (MCP). These judgments are averaged to determine the minimum passing score, which represents the amount of knowledge an MCP would likely demonstrate on the examination.

• Simulation Examination

The passing score for the simulation examination is determined using a method similar to that described for multiple-choice portions. Each section in a simulation was evaluated by content experts when the problem was developed. A minimum passing level (MPL) was established for the section using the scoring weights assigned to the options in that section and represents the level of performance expected of a “minimally competent practitioner.” The overall examination has an Information Gathering (IG) MPL and a Decision Making (DM) MPL, which represent the sums of the MPLs of all IG and DM sections on the examination.

• Equating

A statistical process called equating is used to ensure consistency in the meaning of the score required to pass an examination. If the raw passing score varies slightly between different versions (or “forms”), the level of knowledge required to achieve the passing score remains the same, thus assuring that all candidates are treated fairly.

• Scaled Score

Scaled scores are reported to emphasize that although different forms of the examination may have slight differences in difficulty, the passing score for an examination is based on

a consistent level of performance. Scaled scores are computed by setting the raw passing score equal to the scaled score required to pass. The scaled score is not the same as a percentage. The raw passing score may vary slightly between forms, depending on the difficulty of the items on the form; however, the scaled score required to pass (and the level of knowledge required to pass) does not change. This process is used to ensure fairness to all candidates.

■ Your Salesperson Examination Score

After you have completed the Salesperson examination, you will be instructed to report to the testing supervisor to receive your score report. Your score report will show your result for your examination and will give diagnostic scoring information for any portion you did not pass. To be eligible to apply for a salesperson license in New Hampshire, you must pass both the National and State portions of the examination. The passing score for each portion of the Salesperson examination is a scaled score of 70.

■ Your Broker Examination Score Report

After you have completed the Broker examination, you will be instructed to report to the testing supervisor to receive your score report. Your score report will show your result for your examination and will give diagnostic scoring information for any portion you did not pass. To be eligible to apply for a broker license in New Hampshire, you must pass both the national simulation and state multiple-choice portions of the examination.

For the national simulation portion of the examination, you will score points for Information Gathering (IG) sections and for Decision Making (DM) sections. The sum of your scores on all IG sections is reported as your IG total raw score, and the sum of your scores on all DM sections is reported as your DM total raw score. Your total raw scores are converted to scaled scores, and you must meet or exceed scaled scores of 70 for both IG and DM to pass this examination.

The passing score for the state multiple-choice portion of the examination is a scaled score of 70.

■ If You Pass the Examination

If you have passed both parts of the examination, you will receive a score report that will summarize your examination performance. This original score report will also allow you to apply for a license. You will need to submit both the

original score report(s) and the license application, which is included in the handbook. To download and print an application for licensure, visit the www.goAMP.com website. You may obtain an application for licensure at <https://www.oplc.nh.gov/real-estate-commission/forms.htm> or contact the New Hampshire Real Estate Commission at 603-271-2219. To receive your license, please send the original score report(s) that shows your passing scores along with a properly completed application for licensure to the New Hampshire Real Estate Commission office at 121 S. Fruit St., Suite 201, Concord, NH 03301.

■ If You Fail the Examination

If you do not achieve a passing score, your score report will indicate your scores and reapplication instructions. If you pass only one portion, you have up to eight attempts within six months to pass the second portion.

Should you fail to pass the exam within the time frame noted above, you will be required to complete an accredited pre-licensing course in addition to any pre-licensing course previously submitted to take the original examination, pursuant to Rea 303.05.

To reregister for the examination, you must submit your score report, with any necessary changes to your registration information, along with the appropriate examination fee to the New Hampshire Real Estate Commission.

■ If You Do Not Appear for Testing

If you do not appear to take the examination for which you are scheduled, you must reapply for another examination forfeiting the fee for the examination that you missed, and submit the fee for the examination for which you will be scheduled. You may reapply to the New Hampshire Real Estate Commission.

■ Duplicate Score Report

Requests for a duplicate score report must be made in writing within one year of the examination date. Complete the request form enclosed on page 22 of this handbook, include a check or money order for \$25 per copy (made payable to PSI Services Inc.) and mail your request to PSI. Duplicate score reports will be processed and mailed within approximately five business days following receipt of the request.

Specifications based on 2015 Job Analysis

Subcategory targets and cognitive level targets (i.e., the numbers appearing in parentheses) are guidelines, and the actual number of items on test forms may vary slightly from these targets. Five unscored pretest items will be included on each test form. Examinations are designed to be administered in a 2.5 hour testing session. When combined with a state-specific portion, sufficient additional testing time will be allocated.

In addition, all items will be classified according to the cognitive level that is expected to be required for the entry-level candidate to appropriately respond to the item. The cognitive level classifications are defined in the following table, which also shows the percentage of items at each level for the salesperson examination.

Level	Definition	Percentage of Items
Recall (1)	Requires only recognition of isolated information, such as specific facts, generalizations, concepts, principles or procedures. The information generally does not vary relative to the situation.	30
Application (2)	Requires interpretation, classification or manipulation of limited concepts or data, in which the response or outcome is situationally dependent, but not overly complex.	59
Analysis (3)	Requires integration or synthesis of a variety of concepts to solve a specific problem situation (for example, evaluating and rendering judgments on complex problems with many situational variables).	11
